

SafeLine VA4 voice announcer for micro SD

The voice announcer with a micro SD slot for easy changing of messages

The voice announcer with a slot for a micro SD card for the playback of floor messages and lift music. Often works as a supplement for an already existing floor display and speaker. The unit is easily mounted on a DIN rail without any need for drilling.

Quickly change floor messages and music without any cables by loading the current files onto a Micro SD card (Wav format) and insert the card into the holder.
