

## 4G/LTE antenna with magnetic foot, SMA

---

### 4G/LTE antenna with magnetic foot for SMA (standard antenna contact) only

3 dB antenna for 4G/LTE connections with a frequency range of 690-2700 MHz. Equipped with a RG58 cable to minimise signal loss. SMA connector for connecting to SafeLine 4G VoLTE products.

By using the magnetic foot, the antenna is placed in upright position on a metal surface for best possible reception. The surface on which the antenna is placed will enhance reception of the antenna – the bigger surface, the better.

## Technical information

---

3 dB antenna for 4G/LTE (690-2700 MHz)

Magnetic foot

3-meter RG58 cable

50-ohm impedance

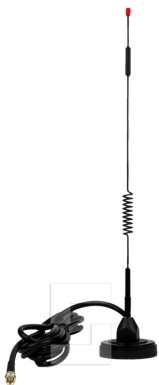

SMA connector, male

## Included in package

---

## Technical data

---

Connector: SMA (male)

Size (HxWxD): 3000 mm

Weight: 270 g
